South Korean Forces Make Gains In One Area

TO OPEN SEASON ON ANTLERLESS DEER THIS FALL

Deer hunters will have a two-day period this fall in which they may shoot doe or bucks with less than two points.

Decision to hold an antlerless deer hunting season November 27 and 28 was announced today by the State Game Commission.

Adams county sportsmen contacted today said they did not know whether any attempt would be made to secure petitions to ban the doe season in the county. Last year sportsmen's groups rounded up 2,400 signatures—but needed 2,900 and as a result a one-day doe shooting period was held here.

More And Larger Herds

Harold Deardorff, president of the Adams County Fish and Game Association, which sparked last year's campaign against the open period on does, said this noon that he did not know whether his group would try again or would abandon the idea of trying to close the county against doe hunting. He added that discussion of the members at the last meeting of the Fish and Game Association indicated that they were disheartened by last year's failure, which they blamed on lack of cooperation among some sportsmen, and were disinclined to try again.

Sentiment of a number of farmers, some of whom have been hard hit by deer depredations, seemed to be that a two-day doe season will help cut down the flocks of deer and thus make their gardens, fields and orchards safer. They noted that herds of animals are now found in sections of the county where deer had not been seen for years.

The farmers argued that increased size of the herds in the mountains in the western part of the county has made the population too large for the amount of food available and as a result the deer are emigrating.

DENIES BLAME FOR DEATH OF MAN IN CRASH

Answering a trespass suit filed against him and three others in the Franklin County courts, Charles W. Ulrich, Chambersburg, flatly denies liability for the death of Bruce C. Carbaugh, of Lincoln Lawn, in a motorcycle-bicycle collision at Stoufferstown on the morning of July 3, 1949.

Mrs. Miriam A. Carbaugh, in filing the damage claim in the county courts a number of weeks ago, asked \$10,390 damages for the death of her husband. Named defendants in the action were Robert B. Grove, formerly of Chambersburg, now of South Bend, Ind.; Ulrich, and Mr. and Mrs. Bernard Kimpel, operators of a tavern in Adams county near Caledonia park. Mrs. Carbaugh asked the damages on behalf of herself and for her husband's parents, Mr. and Mrs. David Carbaugh, of Fayetteville R. 1.

In her original bill of complaint Mrs. Carbaugh said her husband, riding a bicycle on the Lincoln highway, was fatally injured when his cycle was struck by a motorcycle jointly in control of Grove and Ulrich. Grove, she averred, was operating the motorcycle with Ulrich riding tandem. Both defendants, she averred, were returning to Chambersburg from Kimpel's tavern and both were intoxicated. After the collision, she claims, the two defendants left the accident scene without rendering assistance to her injured husband.

Not Entitled To Damages

In his answer, filed by Attorney George S. Black, Ulrich denies that either Carbaugh's widow or his parents are entitled to recover damages as a result of the fatal accident, charging that the accident occurred as a direct result of Carbaugh's negligence.

FIRE COMPANY'S CELEBRATION IS RATED 'SUCCESS'

The Gettysburg Fire department's recent observance of the 87th anniversary of the Battle of Gettysburg was a success financially as well as otherwise, members of the general committee said today, but it will be some time before any definite figures can be announced. A partial report may be ready for the next fire company meeting on July 12.

James S. Shenk and Burgess William G. Weaver, co-chairmen of the general committee, today expressed their thanks to all who helped make the affair a success. In a letter signed by both Mr. Shenk and the bureau, they said:

"The Gettysburg Fire department, its officers and members and the general committee for the observance of the 87th anniversary of the Battle of Gettysburg, which took place June 30 and July 1, 2, 3 and 4, have received many compliments on the program which was arranged and carried out here.

Encouraging For Future

"The commendations came from many sources, and their general nature is a tremendous encouragement to the Gettysburg Fire department to plan a still bigger and better anniversary celebration next year.

"The evident success of our efforts was not due to any small group of persons, but to the hard and unselfish labors of many, and the splendid cooperation of the general public and all who had anything to do in making the affair so successful.

ACCIDENT TOLL FOR JUNE SHOWS DECREASE HERE

Property damage resulting from automobile accidents in Adams county during June was cut more than half from the preceding month, according to Sgt. W. Kurt Duhrkoff, officer in charge of the Gettysburg substation, and there were five fewer accidents investigated by state police here.

The June "recap" shows 20 accidents, compared with 25 in May and 13 in June, 1949. There was one fatal accident in which one person died. The victim was Mrs. Alice Myers, New Oxford R. 1, struck by a car in front of her home on the Cross Keys-Hanover road. May had one fatal accident with one death resulting. There were no fatalities in May a year ago.

Only One Sunday Crash

Twenty-three persons were injured during June compared with 16 in May and only six a year ago. Property damage amounted to \$11,445 in June, \$28,230 in May and \$7,740 in May, 1949.

More accidents occurred on Saturdays during the month than any other day of the week, Duhrkoff's report shows. Of the 20 accidents during the month, eight were on Saturdays, five on Fridays, and two each on Mondays, Tuesday and Thursdays. Only one accident occurred on a Sunday and none on Wednesday.

State police of the local substation made 385 highway patrols during the month, covering 19,790 miles. They spent 1,223 hours on traffic work, 262 hours on criminal investigations, 331 hours on special assignment and 977 hours on station. There were 22 criminal investigations, resulting in 20 arrests, 15 miscellaneous investigations, and 197 traffic arrests. Ninety-five dollars in missing property was recovered.

TWO CRASHES INVESTIGATED

An automobile operated by Cleason M. Richardson, 48, of Fairfield R. 1, collided with the car of Charles Meekley, 45, of York R. 2, 32 miles south of Fairfield, near Zora, at 10:35 o'clock Thursday night, according to a state police report.

Richardson, traveling south on Route 116, failed to yield one half the highway to the other automobile, police said. The left fronts of both cars were damaged, with total damage amounting to \$200, according to the police estimate.

Trucks driven by W. Harrison Hughes, 44, of East Berlin, R. 2, and William L. Peterman, 54, of New Oxford, figured in an accident two miles south of New Oxford on the Bonneauville road shortly before noon Thursday, according to state police.

Defenders Re-capture Two Towns

By LEIF ERICKSON

Tokyo, Saturday, July 8 (AP)—General MacArthur reported today the North Korean Communists were continuing to press their enveloping movement deep in South Korea, but fresh field dispatches credited the American and South Korean defenders with a 10-mile comeback in at least one sector.

The Tokyo headquarters communique said the front reached from a point north of Chonan—which is 60 miles south of Seoul—northeast to Mungun, Chungju and the east coast.

It said the North Koreans were pressing their enveloping movement with two divisions in the Pyongtaek area, which is 14 miles north of Chonan.

Yanks Advance 10 Miles

However, Tom Lambert, AP correspondent reporting from the South Korean front by telephone, said an American combat patrol had moved about ten miles north Friday against meager opposition. He said the only planes visible in the clear sky were American.

Earlier a South Korean colonel said the defenders had recaptured Pyongtaek and Chungju, 40 miles east of Pyongtaek.

MacArthur's communique said the envelopment threat by the Reds in the Pyongtaek area was being pressed by the Third and Fourth Divisions. The enemy First Division was reported farther west, near the west coast, while the Fifth Division was probing south and west from Wonsu, which is 60 miles northeast of Pyongtaek.

Widespread Air Blows

North Korean divisions have an estimated combat strength of 5,000 to 6,000 each.

(The communique in effect confirmed field dispatches of 24 hours earlier. Tokyo headquarters matter has been running consistently later than field reports, a fact which lends credence to field news of an American comeback.)

MacArthur's communique also reported widespread American air blows, ranging from close front support for the troops to a B-29 raid on an oil refinery at Wonsan, 70 miles inside North Korea.

Jet fighters and light bombers, drilling through the clouds of Korea's usual bad summer weather, today knocked out possibly 16 Red tanks on the front south of Seoul.

A Far East air force communique said B-26 bombers spotted a concentration of tanks, vehicles and troops north of Pyongtaek, 40 air miles south of Seoul.

No Air Opposition

When the swift bomb and rocket-carrying bombers droned back into the clouds they had left from six to 10 tanks ablaze, and several trucks destroyed, the communique reported.

On a second mission, B-26s poured bombs, rockets and machinegun fire on 40 vehicles and knocked out a machinegun nest north of Pyongtaek. Two light bombers failed to return. One was hit by ground fire.

F-80 jets also were on the prowl, and reported a bag of six tanks, two half-tracks and seven or more trucks. They attacked numerous vehicles carrying North Korean troops and a railway train. No opposition was met in the air.

FRUIT GROWERS GET ADVICE ON SPRAYING NEEDS

The Adams county extension office, which has been sending spray letters almost weekly to fruit growers throughout the county since the beginning of the season today sent letters calling for additional sprays on apple and peach orchards.

The apple letter calls for the fifth spray—the fifth cover spray—to control codling moth, maggot and other leaf and fruit eating insects, to prevent scab, bitter and black rot, black pox, brook's spot and sooty fungus.

Says Mites Appearing

Two formulae are listed. The first is one pound of copper sulfate, four pounds of spray lime and three pounds of lead arsenate per 100 gallons, with the warning not to use the Bordeaux on wet foliage or such very copper sensitive varieties as Golden Delicious and Gano. The second formula is for one pound of Ferbam and three pounds of lead arsenate per 100 gallons with the Ferbam to be stepped up to two pounds where scab is plentiful or bitter rot is present.

Some first generation codling moth larvae are still present, County Agent M. T. Hartman warned, and leaf rollers are present in some orchards, although the number observed has been small. Mites are appearing in some orchards and growers wishing to control them should use one pound of 15 per cent Parathion per 100 gallons in two spray applications at 7 to 10 day intervals.

Scab is present and active in most apple orchards, the county agent noted. He also warned that black pox infection takes place late this month and during August.

Peach Spray Letters

The eighth peach spray is a third cover spray and is listed to prevent brown rot and fruit and twig infections of scab, to control oriental fruit moth and lecanium scales. The spray includes two pounds of 50 per cent DDT wettable powder and dry wettable sulfur at manufacturers' directions. Where fruit blackened last year 1½ pounds of 15 per cent parathion wettable powder should be added to the spray.

A special letter on peach tree borer control was also sent, with the first application of six pounds of 50 per cent DDT wettable powder per 100 gallons of water scheduled to be applied between July 15 and 20 and the second application to be put on three or four weeks later.

4 RAILROADS SETTLE STRIKE

Chicago, July 7 (AP)—AFL switchmen have called off their 12-day strike against four of five big mid-west and western railroads. They acted yesterday after President Truman called the strike unjustified and threatened drastic action. The strike against the Chicago, Rock Island and Pacific continues.

The other lines—The Chicago Great Western, The Great Northern, The Denver and Rio Grande Western, and The Western Pacific—bent all efforts today to get rolling again.

The end of the strike on the four lines came eight hours after the President told a news conference he would take drastic action if necessary to halt the walkout of 4,000 members of the AFL Switchmen's Union of North America.

He did not say what he would do if his demand were ignored. He did not, for example, say whether he would ask government seizure of the lines.

The Western Pacific said in San Francisco it would run its passenger trains today. Officers of The Great Northern, at St. Paul, Minn., announced operations would be resumed "as fast as we can." D & GW officials at Denver said their trains would be rolling "as rapidly as possible."

The switchmen said they would continue their strike against the Rock Island "to learn whether free men in a free country can still bargain with their employers x x x without fear that big government will team up with obstinate employers."

FOUR COUNTIES CHANGE CLASS

Harrisburg, July 7 (AP)—Population increases have pushed at least four counties into higher classification levels with Berks county facing loss of its \$91,000 a year occupation tax, 1950 census returns showed today.

Preliminary returns from 64 of the state's 67 counties disclosed that 37 counties have gained in population during the past 10 years and 27 have lost.

The returns showed that Berks county, on the basis of population, is eligible for a shift from a fourth to third class county; Chester from fifth to fourth and Lycoming and Lawrence from sixth to fifth.

Population changes for the four counties include Berks, 1950 (254,784) 1940 (241,884); Chester, 1950 (158,691), 1950 (135,626); Lawrence, 1950 (105,085), 1940 (96,877); Lycoming, 1950 (100,903), 1940 (93,633). The total population for the 64 counties recorded in the 1950 census amounts to 6,734,612 compared with a total of 6,800,197 in 1940—a loss of 65,585. The 1950 census returns for Philadelphia, Allegheny and Jefferson counties have not yet been reported.

Pennsylvania's counties are divided into eight classifications according to population. Each classification has its own administrative setup fixed by state law. Of the four counties which must shift into new classification categories, Berks apparently will be most sharply affected in going from the fourth to third class status.

The city at the present time levies an occupation tax which brought in \$91,000 in 1949, according to the state Bureau of Municipal Affairs. Under state law, fourth to eighth class counties may levy the tax at the discretion of the county commissioners. However the tax has been abolished for second and third class counties.

Can't Hunt Turkeys Here

The Associated Press reported from Harrisburg that an 11-day buck hunting season, from November 29 through December 9 will follow the antlerless season. The Game Commission set the opening hour November 27 at 9 a.m. instead of 7 a.m. as in previous years, but retained the legal bag limit at one deer—either a doe or buck.

Dates were also posted for other game. Bear may be shot on November 13 through 18, with the limit being one per person per season.

On small game, the commission said ringneck pheasants, cottontail rabbits and gray, black and fox squirrels may be hunted during the full season, Nov. 1 through 25. Bag limits are two a day and eight the season; rabbits, four and 20, and squirrels, four and 20.

The season for bobwhite quail, Hungarian partridges and ruffed grouse extends from Nov. 1 to 15. Limits are bobwhites, four a day and 12 the season; partridges, two and eight, and grouse, two and six.

Only one wild turkey may be taken by a hunter, Nov. 1 through 25. Nine counties will be closed to turkey hunting. They are Adams, Armstrong, Fayette, Greene, Mercer, Somerset, Venango, Westmoreland and York. In addition parts of Cambria, Cumberland and Franklin counties are closed.

The Texas Lunch strengthened its grip on first place in the softball league by downing the VFW 3-1 in a 50-minute game Thursday evening as play resumed after a week's layoff.

Bartholomew and N. Little staged a pretty hurling duel with the former giving up but one hit. The lunchmen pounded over three runs in the opening inning to clinch the affair. Sensational fielding by Bushman featured for the winners. He speared a line drive in the sixth and opened a triple play with a relay to Raffensperger who fired to Kime. The two VFW runners had received passes.

In the second contest the Glenn L. Bream Garage got sweet revenge for a previous 2-1 setback at the hands of the Elks by blasting out a 13-4 win over the lodgemen to go into a tie for second place with their opponents. Gorman poled a home run for the winners. George Fair permitted the Elks but two hits.

Tonight's opening game will be between the Eagles and Moose instead of between the Eagles and Elks as previously reported.

JIM KONSTANTY IS BECOMING JOE PAGE OF '50

By JACK HAND
(Associated Press Sports Writer)
Jim Konstanty of the Phillies is the Joe Page of 1950. No doubt about it. Just ask any Phil fan.
Day after day, the right-hander with the specs bails out Phil starting pitchers. So far he's done it 34 times in 70 ball games. If he keeps it up, he's a cinch to break Ace Adams' records of 70 appearances for the Giants in 1943.
Good control and a baffling sinker are Jim's main props. Once in a while he zips through a fast ball, but it's his ability to get the ball over that counts most. In 65 innings he's walked only 17 men—about one every four innings.
Eddie Sawyer brought Konstanty to the Phils from Toronto in 1948, a couple of months after he moved up from the International league to become Phil manager. Jim worked only a few games in September.

Saves Day For Miller
Konstanty developed fast last season. Now Sawyer thinks he's the best relief pitcher in baseball. He's been pitching that way, too.
When the going is roughest, Sawyer calls for Konstanty. Curt Simmons has nine wins but Konstanty finished four of them. Rookie Bob Miller has a brilliant 8-0 record. But Jim saved him three times. Only Robin Roberts doesn't seem to need Konstanty. All of Robin's 10 victories have been complete games.
Miller needed help from Konstanty again yesterday to preserve his eighth straight, a 9-6 edge over New York. The sensational freshman was knocked out in the seventh. In came Konstanty to save the day.

Cards Hold Lead
The rookie now is within shouting distance of the record for first-year pitchers, shared by Atley Donald of the Yanks in 1939 and Hooks Wiltse of the Giants in 1904. Each won 12 in a row.
Willie Jones hit his 16th homer, Andy Seminick his seventh and Grady Hammer his fifth as the Phils hung a loss on Sheldon Jones. Bobby Thomas homered for the Giants, No. 11.
St. Louis protected its one game lead in the National by knocking out Ewell Blackwell in a 10-run first inning to crush Cincinnati, 13-1. It was the Card's seventh straight and their 12th in a row at Sportsman's Park.

Gain On Detroit
Brooklyn clouted Warren Spahn and Vern Bickford, making his first relief appearance of the year, for a total of 16 hits in an 8-3 night win over Boston. Homers by Eddie Miksis and Gil Hodges, each with a man on, showed the way.
Chicago kicked up a fuss in the eighth to score three runs, knock out Bill Werle and whip Pittsburgh, 4-2. The previous Cub run was Hank Sauer's 16th homer.

Half the American league took the day off but both New York and Cleveland chipped away at idle Detroit's lead. The Yank's 5-4 edge over Philadelphia left them only 3 1/2 back of the Tigers. Cleveland down Chicago, 5-2, to trail Detroit by 4 1/2.

Tonight's Schedule
Hagerstown at York.
Wilmington at Trenton.
Lancaster at Allentown.
Sunbury at Harrisburg (2).
Pliny, the Roman scholar, noted in A.D. 50 that early residents of the Netherlands protected their homes from the sea with crude mounds.

Double Program At Williams Grove

Williams Grove, Pa., July 7 — Two more action-packed programs of speed and thrills have been slated over the week-end on the famous half-mile Williams Grove Speedway. Saturday at 8:15 p.m., another of the weekly hard top races will be presented under sanction of the American Stock Car Racing association.

Daredevils of the two-wheelers will assemble Sunday afternoon to compete in a program sanctioned by the American Motorcycle association. The first event is scheduled to get underway at 1 p.m.

Interstate League

(By The Associated Press)
The Hagerstown Braves increased their Interstate league lead to two and one half games by topping York twice in a doubleheader last night while runner-up Wilmington split with Trenton. Hagerstown won 9-6 and 6-4.
Wilmington won the seven-inning opener 11-1 but Trenton capped the nightcap 7-2 behind the seventh-hit pitching of Jose Fernandez, negro right-hander.
Last-place Lancaster split a doubleheader with Allentown. The Red Roses won the first game 7-4 but Allentown scored four runs in the first inning to win the nightcap 4-1. In a single contest, Harrisburg

Today's Talk

By GEORGE MATTHEW ADAMS

VACATION BAGGAGE

I wonder how many people, about to enter upon their vacation adventure, take exactly what is essential—and no more? Long before the day for departure, the baggage problem looms like an unsolved riddle. And that problem seems to solve itself by taking two or three times as many things as we need.

Every year that I have gone to my small summer island retreat, I have repeated this folly of taking two or three times as much as I ever used. So, this year I am going to be different, take but a few things, and make it a varied selection. For Father's day I was presented with a harmonica, so that will surely go, for now I can look forward to composing a little music to entertain the birds and squirrels!

My cameras will have to go, too, as they always have. They are really more important than clothes. Most of the clothes we wear on the island are old ones, anyway, and not too many at any one time. Then there is the habitual little noseless typewriter, a lifelong companion, no matter where I go. A few other odds and ends complete the list.

In one respect, however, this year I will take with me a unique personality—a genuine article from Uncle Sam's contingent—a New Jersey mail carrier! I want to learn about this mail service of mine. Not only is this mail carrier a public servant, but a poet, musician, and expert photographer! His name is "Bucky" McDonnell, and he is the beloved friend of every one on his Jersey route. Children adore him for he writes poetry for them, tells them stories, and sings songs to them, as he walks from place to place.

And so I think that my vacation baggage will work out fine this summer, and I shall return refreshed and newly inspired. After all it's the baggage and equipment that adds to our joy and contentment that is the most valuable and essential. A delightful companion, added in the form of a mail carrier, is something, especially with the "trimmings" that "Bucky" has added to his achievements!

Tomorrow Mr. Adams will talk on the subject: "Face The Light!"

Just Folks

By EDGAR A. GUEST

WHY X-RAYS ARE NUMBERED
As in the dentist's chair I sat.

Some little films I chanced to see

And asked: "Whose set of teeth is that?"

Their owner could you name to me?"

The dentist said: "The number will."

And then proceeded with his drill.

"Now just a minute," I replied.

"Those films are photographs of teeth."

Though different they appear outside,

They're all so much alike beneath

That you require a code by which

To tell the humble from the rich?"

"Yes! Heart and lungs and teeth,"

said he.

"We're much alike from head to toe."

The outward differences we see

The X-rays taken never show.

But all the troubles that we find

Are similar in pain and kind.

"The rich, the poor, the weak, the bold,

The fair, the plain, the fat or thin

This fact the rays we take unfold.

Are brothers underneath the skin.

So much alike of flesh and bone,

They must be numbered to be known."

DENIES BLAME

(Continued from Page 1)

Carbaugh's conduct. Averring that Carbaugh was intoxicated at the time the crash occurred, Ulrich said the victim was riding his bicycle in a careless and negligent manner, zig-zagging back and forth on the highway, and without keeping a careful and diligent watch for vehicles approaching him.

Refuting an allegation of Mrs. Carbaugh that he was riding tandem on the motorcycle and was intoxicated at the time, Ulrich said he was a passenger on the "buddy seat" of the motorcycle and was not intoxicated. Ulrich said he was "in such a condition that it was entirely safe for him to ride..." and was in all respects aware of his responsibilities and duties as a rider on the motorcycle.

He denied also that he was in

joint control of the motorcycle with Grove, saying the vehicle was in the exclusive control and possession of Grove.

Denies Drinking

Ulrich said he had not been served intoxicants prior to the accident at the Kimple tavern. He added that he is without knowledge or information sufficient to form a belief as to the truth of the allegation that Grove was served intoxicants at Kimple's adding that if the matter

is deemed material he demands proof.

Referring to an allegation in Mrs.

Carbaugh's suit that he left the accident scene without rendering assistance, Ulrich said that as a passenger on the motorcycle he was under no obligation at law to render aid.

CATTLE—Fresh receipts were augmented by about 150 head held from earlier in the week. Week to date receipts are hardly comparable with a week ago as trading was suspended this Tuesday in observance of Independence Day. However, the number on sale was not materially different from the number offered last week or during the corresponding period a year ago when Monday was observed as a holiday.

Salable receipts included the equivalent of 16 loads of slaughterers steers, two loads of heifers and three loads of stock cattle. Balance of run comprised of cows and bulls. Quality, generally good.

Estimates of the population of Tibet run from less than a million to six million.

Slaughter steers moved rather slowly but prices were about in line with Wednesday's auction or around 25c. higher than Monday. A part load of good and choice 1,000-pound steers yielding top, \$22.50. Two loads of good and choice 1,150-1,350-pound steers, \$22.25; bulk of good and choice dry-fed and grain-fed steers, \$20.50—\$22.50; most of medium and good bracket, \$21.25.

Prices for heifers also about steady with yesterday. One load of good and choice 850-pound Angus heifers, top \$21.25; most of odd-lots of good heifers, \$20.25—28; numerous sales of common and medium in odd-lots, \$20—25.

Demand fairly broad for all classes of cows and sales generally steady. Some up more than the previous day, frequently \$1 and more higher than Monday. Few odd-head of high-grade milk cows, \$24—25; high, when none of the good cows, \$23.50—25.50; common and medium cows, \$19—21.50; canners and cullers, \$15—18; few mixed lots of cullers and common, \$13.50—19.

Bulls also met a fairly broad demand and secured a general 50c. advance over yesterday. Individual good beef bull, \$25.50, but outside high on good sausage bulls, \$24.75; bulk good heifers, \$22.50—24.50; and common and medium, \$21—22.50.

Bulk of stocker and feeder cattle on offer consisted of common and medium offerings about steady with the first part of the week. Sales included 700-850 pounds, \$12—14.

Early indications pointed to fewer calves on offer than the morning estimate called for and trading developed on a fairly active basis as buyers worked for a share of the small run. Prices, however, mostly steady with the previous day. Although the top of \$32, actually 25c. higher than Wednesday's high market, was reached

Harrisburg, July 7 (AP)—Forest fire

damage in Pennsylvania during 1949 was the second lowest in the past 40 years. M. P. Draemel, forests and waters secretary, said Wednesday there were 1,540 forest fires in 1949 which burned 32,722 of the state's more than 15,000,000 acres of forest land. Damage was estimated at \$95,894.

The commonwealth's low record year was in 1948 when there were 842 fires with 13,000 acres burned. Officials said the 40-year average is 40,000 acres burned per year.

Pecan trees should be set in holes three feet wide and three or four feet deep.

Faith Important, Dr. Menges Asserts

Washington, July 7 (AP)—Faith is all-important in these tense times, Dr. Franklin Menges, 92, former congressman from Pennsylvania, told Lutheran Laymen Fellowship members.

A native of York county, Pa., Dr. Menges said "God made this world for his kingdom. He made the world so man could live on it."

With democracy and communism arraigned against each other, Dr. Menges, who was in Congress from 1925 to 1931, said yesterday it should be remembered that "a democrat is a man who does not work for anything that he is not willing his fellowman should enjoy. That is Christian, and democracy must follow this thought or else the Communists will take over the world."

Dr. Menges, a former professor at Gettysburg college, now lives in nearby Arlington, Va. He described himself as "a Pennsylvania 'Dutch' Republican."

MOSES, WHO LED HIS PEOPLE TO GOD

Exodus 19:16-25; 35:4-5, 21

Memory selection: If ye will obey my voice indeed, and keep my covenant, then ye shall be mine own possession from among all people. Exodus 19:5.

Few heroes of ancient Bible history stand out as clearly and distinctly as Moses, God's ambassador to the Hebrews. Not only did Moses

serve Israel as deliverer, lawgiver and prophet but welded a nation out of heterogeneous group of people. His contributions have affected the law, ethics and religion of all humanity. It is the cornerstone of modern law.

Almost single-handed he brought God into the lives of nearly a million disillusioned Hebrews. He taught them morals and religion, judged their differences, unified

them, acted as executive, teacher, diplomat. Above all, he preserved Israel's faith. His very devotion and obedience to God was a pattern for all.

The symbol of God's presence with the Israelites on their long journey was the Ark of the Covenant. Both the Ark and the Tabernacle were built according to God's own specifications. But Moses had to create in the hearts of the people a love and fear of God, a desire to obey his commandments. Would that each nation had a Moses to-day—men who have the spiritual urge to wrest peace from the "wilderness" of suspicion and confusion!

Prince of Egypt

When the mother Jochebed placed the baby Moses in the bul-

rushes so that Pharaoh's daughter would find and admire him, little did she suspect that God was guiding her hand. Trained as a prince in the Egyptian court Moses had unusual opportunities for learning and observation. There he studied under masters of Oriental culture. Dorothy Clark Wilson in her recent novel "Prince of Egypt" describes in elaborate detail the customs and practices of the court in which Moses spent the first forty years of his life. As the youth grew to manhood he watched the Hebrews slaving in the brickyards, building great public buildings, but still maintaining their dignity and integrity. He was much impressed and longed secretly to help them.

Paul in his Epistle to the Hebrews

said he (Moses) "chose rather to suffer affliction with the people of God than to enjoy the pleasures of sin for a season; esteeming the reproach of Christ greater riches than the treasures of Egypt." But the end of Moses' career at court came rather dramatically. He slew an Egyptian lord in defense of a Hebrew slave and was forced to flee to Midian. There he learned the ways of the desert and husbandry under the wise tutelage of Jethro. With this varied background of experience he emerges as leader of Israel.

Leader and Lawgiver

As a refugee in Midian Moses had much time for reflection. After years in the desert God appeared to him (Please Turn to Page 8)

Sunday School Lesson

(Continued from Page 7)
in the Burning Bush, directing him to return to Egypt and bring Israel out of bondage. Today's lesson text is a record of what occurred in the third month after departure when they reached the desert of Sinai. There God called Moses to the mountain top to talk with him. "And mount Sinai, smoked because Jehovah descended upon it in fire." The people were commanded not to ascend the mount. When Moses met Jehovah he was given the Ten Commandments inscribed on tablets of stone. The first four of these commandments deal with man's relation to God, the remaining six with his relation to his fellow man. The Mountain of the Law is thought to be the imposing Jebel Musa towering over the wilderness of Sinai.

First on Moses' program of religious instruction was proper observation of the Sabbath and the bringing of offerings—gifts of gold, silver and brass to build a Tabernacle for worship. "And they came, everyone whom his spirit made willing, and brought Jehovah's offering, for the work of the tent of meetings, and for all the service thereof, and for the holy garments."

The Sanctuary
So Moses put first things first. A moveable sanctuary was built where the people could meet and worship God. It was God's dwelling and they called it the "Tent of Meeting." As further evidence of God's presence with them and his divine leadership a cloud hovered over the tent by day and a pillar of fire by night. When the cloud lifted from the Tent it was God's signal to break camp and resume the march.

Lessons to be learned from Moses' life and work are: willingness to serve God; obedience to God's laws; God's willingness to be our "cloud and pillar;" worship is essential for righteous living.

Questions On The S. S. Lesson
1. How is Moses remembered?
2. What was his greatest achievement?

Wentzel Pardon Is Refused By Governor

Harrisburg, July 7 (AP)—The State Pardon board's recommendation of a pardon for Gerald C. Wentzel, convicted of second degree murder, has been rejected by Gov. James H. Duff.

Duff declined comment on his action Wednesday in rejecting the recommendation in favor of the Pottstown diemaker.

Wentzel, 39, was sentenced in April 1948, to a 10 to 20-year prison term for the 1946 slaying of 28-year-old divorcee Miriam Green, in her Pottstown apartment. Mrs. Green's body was found in the apartment with a scarf knotted tightly about the neck.

Wentzel was refused a new trial after his conviction. The state Supreme court split 4-3 on the retrial issue. Thomas B. McBride, Philadelphia attorney representing Wentzel, based his plea for a pardon on the grounds that "the evidence in the case is entirely circumstantial."

Pilots In Germany Will Stay There

Fuerstenfeldbruck, Germany, July 7 (AP)—If Uncle Sam needs more fighter pilots in Korea, he can find plenty of volunteers in Germany.

Young American fliers are clamoring for a chance to test their new planes in combat. Lt. Gen. John K. Cannon, commander of the U. S. Air Force in Europe, says he has numerous applications for transfers to the Korean front.

But no volunteers are being accepted from this strategic command. Air Force chiefs apparently think the same way as a few fliers who see Europe as the main show "if this fight gets big."

Capt. John L. Moutier, a war-time ace from Peoria, Ill., is one of those who takes the long view. "Sure, we're always ready, willing and able," Moutier said. "But the major campaign will be here in Europe if this fight gets big. We're all set to operate right here if that happens. I see no point in throwing all this away to rush over to that Korean side show."

Ralph Clare, Philadelphia charged by state police of the Gettysburg substation with speeding, said a fine of \$10 and costs to Justice of the Peace James Brinton, Hanover. Joseph Victor Corasaiti, Baltimore, was fined \$5 and costs by Justice of the Peace F. E. Coulson, York Springs, for failing to stop at a stop sign.

Littlestown Lions Install New Officers

The Rev. Kenneth D. James, a past president of the Littlestown Lions club, installed the officers for the year 1950-1951 at the semi-monthly meeting of the club, held Thursday evening at Bankert's restaurant, Littlestown. They are: President, John R. Bloom; first vice president, Clayton L. Evans; second president, Amos L. Spangler; third vice president, John D. Basehoar; secretary, Chester S. Byers; treasurer, Edgar A. Wolfe; tail twister, Paul L. Hollinger; Lion tamer, Marvin Breighner; song leader, Charles F. Tressler; directors for one year, W. A. Crabbs and C. E. Schroll; directors for two years, Harry J. Koontz and Henry E. Waltman.

Luther W. Ritter, a member of the Littlestown Rotary club, showed the pictures of his European trip to the members of the club. This program was in charge of the membership committee consisting of James U. Bowers, Leon H. Gage and Allen Weikert.

The next meeting will be held Thursday, July 20, in charge of a special committee consisting of the retiring president, John F. Freese, and the new president, John R. Bloom. Ladies' night is being planned in connection with this meeting.

Wolf, Littlestown, R. 2; and Francis Arentz, Hanover, R. 1, are the members of the National Guard from Littlestown and vicinity who will leave Gettysburg Saturday morning at 9 o'clock by convoy for 15 days summer training at Indiantown Gap. They are members of the Gettysburg Mechanized Cavalry Troop A-104, National Guard. They will return home on July 22.

The Rev. and Mrs. Harvey B. Simons and son, William, East King street, spent Tuesday and Wednesday visiting with Mrs. Simons' mother, Mrs. E. E. Bigelow, Huntingdon, R. 2.

See Korean War As Long, Costly Fight

Washington, July 7 (AP)—Administration officials are beginning to assess the Korean war as a long, difficult and costly struggle on the part of the United States.

Depending on how the actual fighting goes, this development of a less optimistic outlook about an early end to the conflict apparently means a steady build up of American forces in the war area—with increasing requirements for money, men and munitions.

In addition, the United States is confronted with the need to (1) keep up a billion-dollar flow of arms to western Europe, the Middle East, and southeast Asia and (2) keep its own forces prepared to deal with any further moves by the Soviet-controlled Communist bloc.

The administration thus far has withheld any indication of what measures it may eventually take. But some highly placed informants now believe that a degree of industrial mobilization may be essential.

FORMOSA WILL BE TAKEN SAY CHINESE REDS

Lake Success, July 7 (AP)—Red China has served notice on the United Nations that it is determined to seize Formosa despite any military measures America may take.

Foreign Minister Chou En-lai outlined the Peiping regime's position in a cable yesterday to U.N. Secretary-General Trygve Lie. It accused the U. S. of an "act of open aggression" in assigning American naval units to protect the Chinese Nationalist island bastion.

Meanwhile, the security council called a session at 2 p.m. (EST) today to take final action on a resolution asking the United States to name Gen. Douglas MacArthur as the first supreme commander of a U. N. military force in battle. Passage of the measure appeared certain.

Call U.N. Tool Of America
Chou En-lai's message accused the U. N. of acting as a tool of America by countenancing President Truman's action in sending American naval vessels to guard Formosa. It said:

"By keeping silent on this act of open aggression of the United States government, the security council and the secretary-general of the United Nations have foregone their functions and duties of upholding world peace, and thereby became pliant instruments of the policy of the United States government."

Declaring the U. S. act violates the U. N. principle "forbidding any member to use force against the territorial integrity or political independence of any other state," the message continued:

"Taiwan (Formosa) is an inseparable part of the territory of China. This is not only a historical fact recognized by the entire world, but is also confirmed by the Cairo declaration, the Potsdam declaration and the situation since the surrender of Japan."

Bantu tribes cultivate the rich volcanic soil at the base of Mt. Kilimanjaro in Africa.

Washington, July 7 (AP)—The White House has announced President Truman has no intention of addressing Congress or the nation on the Korean war at present. Presidential Secretary Charles G. Ross said the question of whether Mr. Truman should appear before Congress as some members have urged, was among those discussed at a secret Blair house meeting Monday afternoon.

Missionary Society Meets Wednesday

The monthly meeting of the Abigail Kammerer Missionary society of St. Paul's Lutheran church was held Wednesday evening at the home of Mrs. Mahlon Bucher, near town. It had been planned to hold the meeting on the lawn, but due to the rain it was held in the home. Mrs. Robert B. Wareheim was the leader. The topic was "Migrants—A Critical Problem," and was presented in the form of a play in which all of the members present participated. A song service preceded the meeting. Mrs. Bucher read a scripture lesson.

A handkerchief shower was held in connection with the meeting for the pastor, the Rev. David S. Kammerer, who celebrated his birthday on July 5. He was the recipient of a large number of handkerchiefs. Mrs. Bucher donated a guest package which was received by Mrs. Paul Mayers.

Mrs. Bucher, president, conducted the business session. There were 13 members and two visitors in attendance. It was decided to hold the next meeting in the form of a picnic for the members and their families. It will be held at Big Pipe Creek park, near Taneytown, on Wednesday, August 2. Mrs. L. Robert Snyder will be chairman of the committee, assisted by the officers. Following the meeting there were games in charge of the hostess after which she served refreshments.

First of the Fine Cars in Value

The Car that puts your Best Foot forward

WE think you'll agree that the whole story of an automobile isn't told in its power, its room, its styling, even in its ride.

There is the all-important point about what a car does to you—and that's where ROADMASTER really shines.

For you can't slip into this bonny beauty's broad seats without feeling like somebody pretty special.

When you take its neat wheel in your hand—when you cut loose, with a toe-touch, the rich baritone of its big Fireball straight-

eight power plant—when you feel the smooth surge of its Dynaflo-cushioned take-off—Man, then you know you've got a real automobile!

And don't overlook this:

That graceful sweep of chrome along the fender—found on no other car made today—is a mighty eye-catching note of distinction.

Those four Ventiports, too, cause many a head to turn—they mark you unmistakably as the owner of the biggest and best Buick built—a car as fine and rich as any man has need for.

There are a lot of good, solid,

dollars-and-cents reasons for making ROADMASTER your choice over any other car:

Its size. The commanding performance of its 152-hp Fireball valve-in-head straight-eight engine, Dynaflo Drive standard. A ride that's quite matchless in its gentle softness. Distinguished styling from bold, protective front end to gleaming "double bubble" taillight.

But if you're ready for a car that's more than just an automobile—if you want one that puts your best foot forward in any company—that's the real reason for seeing your Buick dealer quickly—to talk turkey about a ROADMASTER.

SCOUTS LEAVE JAMBOREE SITE; FINAL ASSEMBLY

Valley Forge, Pa., July 7 (AP) —

The biggest gathering of youth ever held in the western hemisphere was just a logistics problem today as 47,000 Boy Scouts scattered to the four winds by train, bus and automobile.

By nightfall, three-fourths of the boys in knee pants who have spent the past seven days at historic Valley Forge will be on their way home to all the 48 states, four U. S.

territories and 19 other nations.

The Scouts second national jamboree wound up officially last night with the final of four assemblies in the huge hillside arena.

After a pageant dedicated to world brotherhood—a theme demonstrated for the past week in full measure by the Scouts themselves—all 47,000 Scouts raised their voices in the strains of "Auld Lang Syne" and then extinguished the campfires that have been burning steadily since last Friday.

Leave By Sections
The camp dismantling and embarkation began by a process of distance to be traveled. The west coast contingents—Washington, Oregon and California groups were among the first to leave.
As each unit placed its baggage on

Virginia Mills

Virginia Mills—Pvt. Paul A. Durdash has concluded a furlough at his home Fairfield R. 1, and returned to his post at Ft. Benning, Ga.

Allen Currens has returned home after completing a summer course at Rhode Island State college.

Mr. and Mrs. Richard Reece and children have moved into their new home, which has recently been built along the Mt. Hope road.

Dale H. Kepner, stationed at Anacostia Air Base, Washington, D. C., visited over the holiday weekend at the home of his mother, Mrs. Carrie Kepner, Fairfield R. 1.

Mr. and Mrs. Ira Lentz have moved into the property recently vacated by Mr. and Mrs. Richard Reece.

Sherry and Joan Bankert, Hanover, are spending the week with their grandparents, Mr. and Mrs. John Kump.

Mr. and Mrs. Luther Lightner, Mrs. Lightner's daughter, Miss Judy Prazier, and Mr. Lightner's sister, Miss Leanna Lightner, are on a vacation tour to California and other points in the west.

Mrs. Mary Mackley and sons, James and Fred, and daughter, Mrs. Eva Hyde, and her son, Robert Hyde, Jr., of Rockford Ill., are the guests of Mrs. Mackley's sister, Mrs. Laura V. Currens, this week, and other relatives. It had been 13 years since James and Fred, and 24 years since Mrs. Hyde have been east to visit their relatives in this section.

Howard Monaghan and Frank Horton, New Cumberland, were guests Wednesday of Mr. and Mrs. Allen Currens and family.

Mr. and Mrs. Carl Yoder and daughter, Judy, and son, Larry, Essex, Md., were guests over the hol-

trucks bound for one of three railroad stations, the rubbish and garbage trucks moved in for the last time.

And when the cleanup squad moved on, there was left only a bare spot—a patch of dried grass—where a few hours before a group of boys had cracked bull whips, spun yoyoes, swapped trinkets and mingled with their fellow Scouts.

The final units—those from the host council of Pennsylvania, Delaware and Maryland—will be on their way home by dusk tomorrow. And on Monday, a Philadelphia firm of contractors will take over the tremendous job of putting George Washington's old camp site back in continental order.

That job entails far more than might be imagined. One foot of water pipe for every Scout in camp—47,000 feet—must be removed from the park as well as staggering amounts of wire, lumber, electrical equipment and \$2,000,000 worth of Army lend-lease.

The boys took home with them a world of memories—President Truman's visit to the encampment last Friday, the impressive candlelight convocation on Sunday, General Dwight D. Eisenhower's appearance on the Fourth of July and last night's final assembly in the amphitheater.

Dr. Arthur A. Schuck, chief executive of the Boy Scouts of America and Jamboree leader, told the boys to carry away from the tent city the goal of "world friendship and understanding."
